Traub Lieberman Attorney Lisa Rolle Wins Dismissal in New York Construction Accident Action

Related Attorneys: Lisa M. Rolle

Traub Lieberman attorney Lisa M. Rolle secured dismissal of the complaint against the firm's client, a water utility, in a construction accident action. In its November 13, 2026 decision, the New York Supreme Court, Westchester County, granted dismissal for failure to state a cause of action, finding that the defense affidavit established that the client owed no duty to the plaintiff or with respect to the accident location. This pre-answer motion achieved an early dismissal for our client, saving anticipated extensive litigation expenses that are typical with Labor Law actions. The result highlights the value of a focused defense strategy that examines a client's actual connection to the premises and the work at issue from the outset.
