Lawsuits against lawyers arising from errors and/or omissions in the performance of legal services continue to rise. It is an essential part of a law firm's business practice to evaluate its legal risk and malpractice insurance needs. This program is designed to educate attorneys on how to prosecute and/or defend a legal malpractice action. In addition, this program will educate attorneys about their legal malpractice exposures, what they should do in the event that a lawsuit or a grievance complaint is filed against them, and what they should do when situations arise that indicate that a legal malpractice claim is likely. Both solo practitioners and members of larger firms would benefit from knowing how to assess professional liability risk and manage legal malpractice litigation.
