Traub Lieberman Proudly Supports International Women's Day

Traub Lieberman Straus & Shrewsberry LLP proudly supports International Women's Day and celebrates the inspirational women who have made great contributions to the law.

The first observance of a Women's Day was held on February 28, 1909 in New York. At the 1910 International Women's Conference, March 8th was suggested to become an "International Women's Day" and the official day of observance.
