TRAUB LIEBERMAN

SERVICES

Professional Liability

Traub Lieberman attorneys have helped defend a wide array of professionals, including attorneys, architects and engineers, accountants, tax preparers, CPAs, financial advisors, registered representatives, insurance agents and brokers, appraisers, title agents, and real estate agents. These professionals have seen a dramatic increase in claims over the past decade, and increasingly turn to Traub Lieberman to defend their interests.

Traub Lieberman often serves as the attorney for other attorneys. A large number of cases involve legal professionals that are sued when a desired outcome is not achieved, or improper or inadequate counsel is alleged. Traub Lieberman attorneys also handle medical malpractice claims, and work with a wide variety of healthcare professionals, including nursing homes and religious institutions.

Many of these types of claims fall under E&O and D&O insurance coverage. Our philosophy is to always work in tandem with insurance companies, adjusters and claimants to ensure each insured receives timely, efficient and superior legal representation.
